Upcoming night works in your area

Victoria Street road reinstatement

To provide a reliable water supply now and into the future, Greater Western Water is installing a new, larger water main along Victoria Street. These works are essential to replace 3.5km of 140-year-old water mains, with the project being delivered by Jaydo Construction.

What we are doing and when

We'll be finishing off the road surface along the northern side of Victoria Street in the eastbound lane. This work is planned to take place from **29 October for 3 nights between 8pm and 6am**. Please see work zones on the map below.

Traffic management will be set up around works zones with minor detours.

Location of the works

 First Night

 Second Night

 Third Night

What to expect

While we will continue make every effort to minimise disruption and inconvenience to you, the following can be expected:

- A construction vehicle will move along the northern side of Victoria Street in the eastbound lane
- Some construction noise is expected; this will be limited to short periods of time
- Parking spaces on Victoria Street may be occupied during working hours
- Traffic and bike detours will be in place around work areas temporarily
- These works will not impact your water or sewerage services
