

Upcoming works in your area

Watermain renewal: Bourke Street and Mcllwraith Place, Melbourne

City West Water is committed to providing you with a reliable water service. We are renewing the existing water mains in Bourke Street and Mcllwraith Place in Melbourne's CBD. The existing mains built in 1896 and 1940 are now reaching the end of their operational life.

These works will be completed by Downer Group.

On 1 July 2021, City West Water and Western Water will integrate to form a new water corporation – Greater Western Water.

When will the works take place?

Works are scheduled to begin in the week commencing **26 July 2021** and will take **approximately 14 weeks to complete**.

Works will take place **at night** between **7pm and 5am, Sunday- Thursday**.

Permanent reinstatement works will then follow within 3 weeks of completion.

Where will works take place?

Works will take place along:

- The south side of Bourke St between 121 Exhibition St and Windsor Place
- Mcllwraith Place, between Bourke St and Little Collins Street

Construction will commence from Exhibition St and continue east towards Meyers Place. The location of works is marked in blue on the map below.

What does this mean for you?

While we will continue make every effort to minimise disruption and inconvenience to you, the following can be expected:

- There will be construction noise and dust from machinery and construction vehicles during working hours.
- Changes to traffic will include west bound lane closure along Bourke St and reduced on street parking during the work hours.
- Traffic management will be on site to assist vehicles, pedestrians and cyclists move safely around the work area.
- If we require access to your property for any part of these works, you will be contacted directly ahead of time.

Will my water supply be impacted?

Your water will continue to be supplied from the existing main during construction of the new main. There may be a short-planned interruption to your water supply, whilst we connect you to the new water main. If this is required, we will contact you to arrange a suitable time to complete these connection works.

Customers who are on dialysis, life support or who have other special needs, please register as a **Special Needs Customer by calling 132 642** so we can put in place measures to assist you.

Any disturbance to your property will be restored once our works are complete.

Coronavirus (COVID-19 and our works)

To ensure the safety of our workers and the community, all active construction and maintenance sites operate in line with COVID Safe plans. We are continuing to closely monitor current information and advice about coronavirus in our community.

For more information about how City West Water is responding, please visit citywestwater.com.au/COVID19.

Need more information?

Thank you for your patience during these essential works. Every effort will be made to minimise any inconvenience to you during the works and we will keep you informed of our progress.
