

## **Upcoming works:** Night works at Elizabeth Street near Lonsdale Street (Site E1)

9 November 2023

### **Elizabeth Street Sewer Upgrade Project**

To cater for growth in Melbourne's CBD, Greater Western Water is constructing a new sewer in Elizabeth Street between Lonsdale and Victoria streets. The project will be delivered for Greater Western Water by Rob Carr Pty Ltd.

### **What we are doing and when**

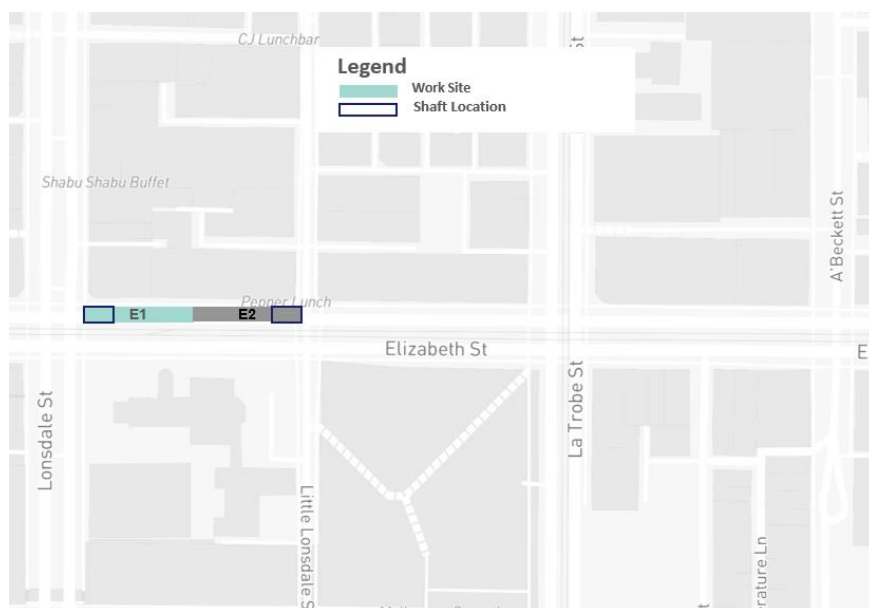

Construction at site E1(see map below) is expected to be complete by late November 2023.

Starting from Thursday 16 November 2023, road reinstatement work will take place within the site compound (E1) located at Elizabeth Street on the north side of the intersection with Lonsdale Street. This work will take place at night for four nights and will include excavation, road sawing and asphaltting works.

Once this work is complete, this work site (E1) will be returned to its original condition. All fencing, barriers and traffic management signage will be removed.

### **What to expect**

- Work will take place between 12.30am and 4.30am Monday to Thursday and is expected to be complete by Thursday 23 November 2023.
- There will be periods of moderate noise from use of road saws and excavators.
- Road sawing works will take place during the day. However, some road sawing may happen during the night, if required.
- Work will take place within the existing site compound and will not increase traffic impacts.
- This work will not impact your sewerage or water supplies.

### **Why do we need to do these works at night?**

We make every effort to complete works during the day wherever possible, however some activities must be completed at night. These construction activities need to happen when the trams are not running.
